For normal soils, use 8 to 12 ounces per hundred pounds of work. ISLAND BAY Liquid Laundry Detergent is completely soluble at all normal water temperatures. For optimum soil release, use in hot (140°F to 160°F) water for removing normal soils. Effective soil removal at the concentrations and temperature given may be obtained during a normal 6 to 10 minute wash cycle. If extreme soil conditions exist, a longer or repeat cycle may be necessary.
