Phone—732-238-6700  
Fax— 732-238-5590

**GENERAL DESCRIPTION:** AL-SAFE 205 is a granular, machine warewashing compound with a built in rinse additive, that is soft metal safe and designed to handle moderate soil loads in soft to medium-hard water at normal warewashing concentrations.

AL-SAFE 205 is not only packed with strong cleaning and destaining agents, but also the glaze and metal protectants necessary to assure a safe and effective wash.

AL-SAFE 205 solutions are safe to use on china, plastics, glassware, aluminum, pewter, and silver. They will not attack machine parts thereby reducing parts replacement and chance of breakdown. In addition, AL-SAFE 205 conditions hard water and prevents formation of scale on machines.

## PHYSICAL PROPERTIES:

Chemical Composition . . . Destaining agents, alkaline builders, surfactants, glaze and metal protectants, anti-caking and water softening agents.

Appearance . . . . . Orange powder

Caustic . . . . . Not Present

Metal Safety . . . . . Recommended for use on aluminum and other soft metal ware at normal use concentrations.

Foaming . . . . . Low

Rinsing . . . . . Excellent

Water Hardness Tolerance . . 10 Grains Per Gallon at 0.3%

7 Grains Per Gallon at 0.2%

3 Grains Per Gallon at 0.1%

## RECOMMENDED RANGE OF USE CONCENTRATIONS:

Titrate with Institutional Test Kit. Use range is 0.15% to 0.3%, or 6 to 12 drops (each drop = .025%) using a 10 ml sample and 3 drops of Brom Phenol Blue Indicator Solution. Select actual use concentration to handle water hardness and soil load.

NOTE: To properly titrate, adjust for raw water alkalinity by titrating H<sub>2</sub>O just as you would a detergent solution. Subtract that number from total drop titration to derive intended detergent concentration.

Example: Raw water titrates 1 drop, total drop titration equals 11 drops. (11 - 1 = 10 x .025% = 0.25%)

## HANDLING PRECAUTIONS:

### CAUTION: WARNING KEEP OUT OF REACH OF CHILDREN.

Alkaline powder. Contact with skin and eyes may cause severe irritation. Harmful if swallowed. Flood with water if splashed in eyes. Flush with water for 15 minutes and consult physician immediately. If ingested, drink large amounts of milk, milk of magnesia or gelatin, or if these are not available, drink large amounts of water. DO NOT induce vomiting. Obtain prompt medical attention.

## PACKAGING:

50 lb pail - 50 lbs net / 53 lbs gross
