**GENERAL DESCRIPTION:** LOW TEMP RINSE AID CONCENTRATE is a concentrated liquid rinse additive. When diluted 10 :1 it reduces rinse water surface tension, providing rapid sheeting for spot free drying. LOW TEMP RINSE AID CONCENTRATE is formulated especially for use in low temperature, energy efficient dishwashers. LOW TEMP RINSE AID CONCENTRATE is a highly active surfactant blend that is not only an excellent drying agent, but also aids in detergency during the wash cycle. The excellent sheeting action of LOW TEMP RINSE AID CONCENTRATE when diluted, helps eliminate alkaline and hard water film deposits from flatware, glasses and dishware. It does this by allowing rinse water to drain quickly, before the dissolved solids in the water have an opportunity to precipitate onto the ware.

## PROPERTIES:

Chemical composition . . . .Organic, nonionic wetting agents  
Appearance . . . . . Clear blue liquid  
pH . . . . . 7  
Specific Gravity . . . . . 1.016 (8.46 pounds per gallon)  
Wetting Ability . . . . . Instant  
Foam . . . . . Acts as a mild suppressant  
Odor . . . . . Not residual

## INSTRUCTIONS FOR USE:

LOW TEMP RINSE AID CONCENTRATE should first be diluted 10:1. The dilution is recommended for use at concentrations between a minimum of 150 ppm (1:6,667) and a maximum of 300 ppm (1:3,333). The actual use concentration is determined by the individual operating conditions. Final rinse temperature should be maintained at 140° F and should not exceed 150° F, in any case. Adjust the rinse injector to feed LOW TEMP RINSE AID CONCENTRATE required concentration to achieve the rapid sheeting of water from the ware

## HANDLING PRECAUTIONS:

### CAUTION - FIRST AID

**EYES:** Flush with water for at least 15 minutes. If irritation persists, obtain medical attention. **SKIN:** Wash with plenty of water for 15 minutes. If irritation occurs and persists, obtain medical attention. **INHALATION:** Remove from exposure. If discomfort occurs and persists, obtain medical attention. **INGESTION:** Drink water to dilute. Obtain medical advice by phone. **DECONTAMINATION PROCEDURE:** Wash with soap and water.

**WARNING:** Do not store near oxidizing of flammable material.

**KEEP OUT OF REACH OF CHILDREN**

## PACKAGING:

4 - 1 gal plastic bottles - 34 lbs net / 37 lbs gross  
5 gal plastic pail - 43 lbs net / 46 lbs gross
