

Super Drainzyme

ENVIROCHEM

425 Whitehead Avenue
South River, NJ 08882
Phone—732-238-6700
Fax— 732-238-5590

GENERAL DESCRIPTION: SUPER DRAIN-ZYME is designed to be injected automatically by the DRAIN-ZYME injector. The SUPER DRAIN-ZYME injector maximizes enzyme efficiency by providing a convenient way to frequently dispense SUPER DRAIN-ZYME into the drain or grease trap (two small doses are more effective than one large dose). SUPER DRAINZYME is a uniquely formulated combination of D'limonene and several enzymes to quickly and efficiently dissolve grease build-up and keep grease traps liquefied and odor free.

PHYSICAL PROPERTIES:

Chemical Composition	Emulsifiers, Citrus solvents, Penetrating agents, stabilizing and buffering agents, soil suspending agents.
Appearance	Clear orange liquid
Specific gravity	1.0 (8.33lbs/gal)
Stability	6 months @ Ambient Temperature
Wetting Ability	Good
Free Caustic	None
Foam	Low to Moderate
Rinsing	Complete
Solubility	Complete and Fast
Emulsification	Rapid
Odor	Citrus

USE DIRECTIONS:

GENERAL

For best results, treat during periods of lowest flow rate. The Longer SUPER DRAIN-ZYME stays in drains, lines, and traps without being distributed by flowing water, the better it works. In multi-story buildings, always treat the lowest level first. This clears the lowest lines and prevents blockage by accumulations released from upper lines.

DRAIN LINES

For best results, inject SUPER DRAIN-ZYME daily. Add product in amounts listed below by injecting SUPER DRAINZYME directly into the drain pipe starting on the lowest floor and working up at a rate of one floor every day. When the top floor is reached, continue treatment from the top floor only.

Pipe Size Dosage

2" 8-12 oz. daily
4" 11-16 oz. daily
6" 14-22 oz. daily
8" 18-28 oz. daily

GREASE TRAPS

For traps less than 150 gallons of tank capacity, add 6-10 ounces of SUPER DRAIN-ZYME daily, by injecting it into sink drain line or floor drain close to the grease trap. For larger grease traps, add 8-10 ounces of SUPER DRAIN-ZYME daily for every 500 gallons of tank capacity. SUPER DRAINZYME should be injected at night when the traps are used the least.

ODOR CONTROL

SUPER DRAIN-ZYME is highly effective at controlling the odors associated with urine, feces, vomit, spoiled foods, etc. SUPER DRAIN-ZYME should be diluted (3) parts warm water to (1) part product before use. Remove excess soil deposits and spray thoroughly.

SUPER DRAIN-ZYME can be used safely on any surface not harmed by water alone: including concrete, carper, grout, wood, stainless steel, formica, vinyl, porcelain, and linoleum.

Carpet: May be applied with a shampoo machine (do not mix with shampoo). Apply 3-4 hours prior to shampooing. Soil extraction method recommended.

Garbage trucks and cans: For best results, spray on at day's end. Rinse before using next day.

HANDLING PRECAUTIONS:

CAUTION: WARNING KEEP OUT OF REACH OF CHILDREN.

Undiluted, this product may cause skin irritation or damage to the eyes. Harmful if swallowed. Avoid contact with skin and eyes. Do not take internally. In case of contact with eyes, flood repeatedly with water and call physician. Avoid contamination of food.

May be harmful if swallowed. Can cause eye or skin irritation. Rubber gloves should be worn when using this product.

PACKAGING:

5 GALLON PAILS

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
