

SUPER SURFACTANT

425 Whitehead Avenue
South River, NJ 08882
Phone—732-238-6700
Fax— 732-238-5590

GENERAL DESCRIPTION: SUPER SURFACTANT is a laundry detergent concentrate for use in hot or cold water. SUPER SURFACTANT is the result of the latest technology in surfactants and emulsifiers; raw materials that are designed to work equally well in hot or cold water. SUPER SURFACTANT is a specialized blend of soil suspending agents, emulsifiers, anti-redeposition agents, water conditioners, and optical brighteners. SUPER SURFACTANT will deliver clean linen when used in combination with laundry bleach and Laundry Break.

Because of SUPER SURFACTANT's excellent rinsing and water conditioning properties, linen that was once dingy gray or yellow becomes white again! SUPER SURFACTANT will not only deliver clean, white linen but will actually reverse the graying or yellowing problem encountered in a troubled laundry.

With SUPER SURFACTANT, even wool and silk may be laundered without causing damage. Badly stained linen previously taken out of circulation can be put back into service by using SUPER SURFACTANT as a presoak.

PHYSICAL PROPERTIES:

Chemical Composition	Soil suspending and rinsing agents; emulsifiers; anti-redeposition agents; mineral sequestering agents for hard water conditioning; neutrally charged surfactants for effective hard water washing.
Appearance	Light Amber Liquid
pH	6.8-7.8
Specific gravity	1.03 (8.6 lbs./gal)
Penetration	Immediate
Stability	1 Year @ Ambient Temperature
Wetting Ability	Excellent
Foam	Moderate
Rinsing	Complete
Biodegradable	Yes

DIRECTIONS FOR USE:

SUPER SURFACTANT is specially formulated to be used with automated injector systems. SUPER SURFACTANT can be dispensed directly from the shipping container, thereby eliminating hand feeding from powder hoppers and possible spillage. For normal soils, use five (5) to eight (8) ounces per hundred pounds of work. SUPER SURFACTANT is completely soluble at all normal water temperatures. Optimum soil release will result at any temperature from 150°F to 170°F. Effective soil removal at the concentrations and temperatures given may be obtained during a normal 6 to 10 minute wash cycle. If extreme soil conditions exist, a longer, or repeat cycle may be necessary.

AS A PRESOAK: SUPER SURFACTANT may be used as an effective presoak when diluted 1 to 2 ounces for every 5 gallons of water. For heavily soiled linen, an overnight presoak is recommended.

HANDLING PRECAUTIONS:

**CAUTION: FIRST AID
KEEP OUT OF REACH OF CHILDREN.**
This product designed for commercial use only. Not intended for home use.

EYES: Flush with water for at least 15 minutes. If irritation persists, obtain medical attention. **SKIN:** Wash with plenty of water for 15 minutes. If irritation occurs and persists, obtain medical attention. **INGESTION:** Drink water to dilute. Do not induce vomiting. Obtain medical attention. **DECONTAMINATION PROCEDURE:** Wash with soap and water.

PACKAGING:

- 5 gal plastic pail - 43 lbs. net / 46 lbs. gross
- 15 gal plastic drum - 129 lbs. net / 135 lbs. gross
